Metrolight SuperHID 20, 39 and 2X39 watt Electronic Ballast

SuperHID 20, 39 and 2X39 watt

The SuperHID 20, 39 and 2X39 watt are members of the SuperHID microprocessor-controlled family of electronic HID ballasts. This breakthrough solution is transforming the way architectural and commercial lighting fixtures are powered, radically improving life cycle light stability, and enabling full range dimming as a built-in option. SuperHID ballasts are exceptionally easy to install, fitting right in with the most modern, compact architectural fixtures.
