

**LED Solar Light:
The Delta**

LED Solar Powered Light

Signature's solar powered light is available in its most popular design: the Delta. The use of LED's dictates a very long life span, with a minimum of 50,000 hrs (over 5 years). This life span is 50 times longer than Halogen bulbs and 10 times longer than fluorescent lights.

Willing to go beyond its ISO 14001, Signature promotes ecology by developing environmentally friendly products. Our solar powered light cuts your Carbon footprint by offsetting greenhouse gases. Carbon dioxide emissions are reduced through improved energy efficiency utilising exceptionally efficient High Bright LED's.

This product is a "double winner" as it operates free of the electrical grid and requires little maintenance. Our solar technology can present an attractive alternative for improving operation while enabling compliance with green mandates and budget restrictions.

Features

- ◆ Our lights use the column to hold the battery, which gives an elegant and clear finish.
- ◆ The systems control device intelligently controls the battery charge to its optimum charge and the light automatically turns on at dusk and switches off at dawn.
- ◆ Vandal resistant unit which is IP65 rated against water & dust ingress
- ◆ Built in bracketry which is anti-rotational, the solar light fits on 168mm base column
- ◆ LM6-M cast aluminium construction with polyester powder coated
- ◆ The design naturally blends into the environment
