

**Subway Lighting  
Systems**

# Subway Lighting Systems

Designs are tailor-made to customer requirements and can be either Cornice Recessed or Surface mounted options. The cover is manufactured using 3mm mild steel which is powder coated White (other colour options available), secured as standard by 6 tri-head stainless steel anti-vandal fixings.

## Customised Designs

Through our Design Service, Signatures customers are offered advice on product selection.

With its own fabrication department, Signature are also able to manufacture alternative sizes and designs to meet the customers needs.

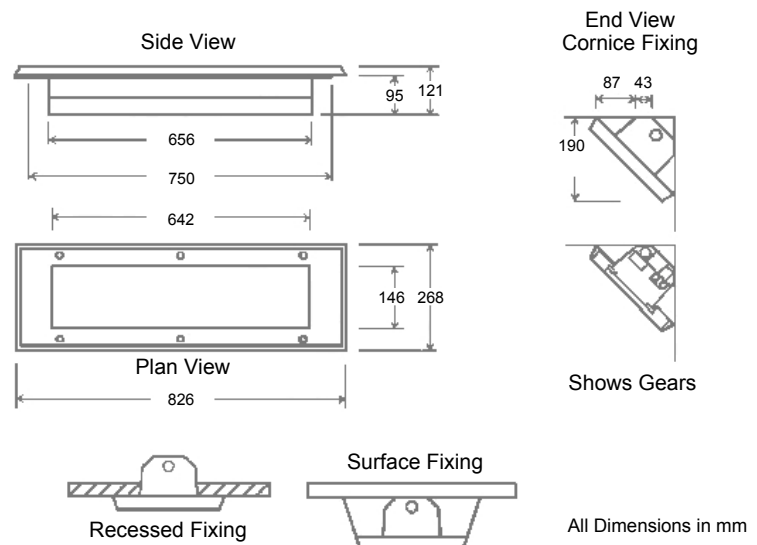

**Body** - Constructed from 3mm mild steel fabricated and galvanised after manufacture, each unit has 25mm conduit/cable entry ports in each end and slots to provide up to 10mm diameter fixing points.

**Window** - Comprising of two panels of either 4mm or 10mm with a 1mm protective cost effective barrier which protects the main window against attack such as graffiti.

**Gear Tray** - Polyester powder coated White gear tray, independently fused circuits with power factor correction as standard, suits either 2 x 18w, 2 x 24w or 2 x 36w compact fluorescent tubes.

(Other configurations available)

**Infill panels** - Standard panels 1000mm long, manufactured from 2mm mild steel powder coated White.
